

Lab 3 - Cloud track

Publish your Gradio App on **Hugging Face Spaces**. This will put your app online. Now you can share it with anyone! See docs <https://huggingface.co/docs/hub/spaces>

Hugging Face transformers are state-of-the-art Machine Learning models. Integrate an 'image to text' model in your app. This can give a text description of images you upload to it. See docs <https://huggingface.co/docs/transformers/index>
